
Trust bifurcation — two stable attractors in (trust, H) space
(a) Phase portrait — trust/entropy dynamics
(b) Trust trajectories — dual attractor
High-trust attractor
Low-trust attractor
trust bifurcation boundary
Entropy H(t)
Trust τ
high-trust attractor
governed run (theoretical)
spec_boot synthetic (observed)
bifurcation boundary
low-trust attractor
Trust τ(t)
Time (min)
